

Fighting cancer alone?

Three vital roles with a high dose of vitamin “C” (ascorbic acid) can play in the fight against cancer. Firstly, vitamin “C” inhibits tumour growth by regulating proper cell tissue integrity; secondly it greatly enhances the immune system when ingested in sufficient quantities; and finally it has “cytotoxic e.g., toxic to cells, which means that, in combination with other natural substances like “Flaxseed Oil”, it can kill cancer cells without damaging the healthy ones, and acts as a kind of non-toxic chemotherapy.

Black Salve. Note, the “four herbs” needed to make this are “Bloodroot” “Galangal” “Graviola” “Chaparral” (1) put 50 grams each of Bloodroot, Chaparral, Graviola, and Galangal into a bowl. (2) Next put 500ml of distilled water into a pot, next 250 grams and Zinc chloride into the water, bring this mixture to the boil, stirring frequently to insure there are no lumps. (3) Next add the four dried herbs into the mixture, stir completely until all the lumps disappear, once you have consistency, add 25ml of DMSO still stirring. (4) Next add 25ml of Glycerine & stir it in, than keep the formula moist. (5) Allow the mixture to simmer for about 15 minutes, when the mixture cools & cures and isn’t running anymore, and has a paste like consistency. (6) It is best used after letting it settle for two days at room temperature. (7) Store in refrigerator, will keep indefinitely: Please note, you can buy Black Salve from your veterinarian:
